Profile Summary

- Recent MCA graduate seeking an entry-level Java Developer role.
- I have a strong foundation in Java programming and writing SQL queries for database management.
- I am a quick learner who is eager to build reliable software and contribute to a professional team.

Technical Skills

- Java
- JavaScript
- SQL
- Bootstrap
- HTML5
- Spring Boot
- CSS3
- MySQL

Internship

Live Stream Technologies- MERN Stack Developer | Dec 2024 – Apr 2025

- Developed full-stack applications using the MERN stack, focusing on improving scalability and overall system performance.
- Built and integrated RESTful APIs with Node.js and Express to ensure secure, efficient data communication between the frontend and backend.
- Designed responsive user interfaces in React.js, optimizing page load times and enhancing the overall user experience.

Projects

Docs chain – Web App

Feb 2025

Technologies: HTML5, CSS3, JavaScript, React.js, Bootstrap, MongoDB, IPFS, JWT Token

- Built a secure document storage platform using the **MERN stack** and **IPFS** for decentralized data management.
- Implemented **cryptographic hashing** and role-based access to ensure document authenticity and security.
- Developed full CRUD features with an **immutable history** to eliminate single points of failure and improve reliability.

Employee Management – Web App

Jul 2025

Technologies: React.js, JavaScript, HTML, CSS, Sequelize ORM, MySQL

- Developed a full-stack Employee Management System using **React, Node.js, and MySQL** with **Sequelize ORM** for efficient data handling.
- Implemented secure **CRUD operations** and **admin authentication** to ensure data integrity and restricted system access.
- Designed a responsive and user-friendly interface using **Tailwind CSS**, featuring real-time notifications and optimized API integration.

Education

Master of Computer Application
